

15th Congress of Asian Society of Cardiovascular Imaging (ASCI 2022 Hong Kong)
Oral Presentation Acceptance Notification

Full Name	Paper Title	Format	Acceptance Result
Dr. Xiangnan LI	(44) Diagnostic Value of Delayed Contrast-enhanced Cardiac CT for Detecting Left Atrial Appendage Thrombus in Patients with Atrial Fibrillation	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Dr. Shuang LI	(74) Cardiac MRI Risk Stratification for Outcomes in Dilated Cardiomyopathy with LVEF \geq 35%: Cohort Study with a Long-term Follow-up	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Ms. Yanchun CHEN	(90) Optimal Measurement Sites of Coronary Computed Tomography Angiography-Derived Fractional Flow Reserve	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Dr. Wenyun LIU	(101) 3D Whole-heart Non-contrast-enhanced mDixon Water-fat Separation Coronary MR Angiography with a Deep Learning Constrained Compressed SENSE Reconstruction	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Dr. Thu-Thao LE	(109) Imaging Predictors of Myocardial Fibrosis Progression in Hypertensive Patients	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Dr. Rui SHI	(118) The Impact of Glycated Hemoglobin on Coronary Plaque Progression in Diabetic Patients Evaluating by Serial Coronary Computed Tomography Angiography	Scientific Abstract	Accepted as Oral Presentation (BYPA Finalist)
Prof. Cunxue PAN	(8) Type Switching and Mitral Regurgitation of Midventricular Takotsubo - Implication of Multiple Imaging Modalities	Case Report	Accepted as Oral Presentation
Ms. Mei YUAN	(18) Native T1 Mapping Texture Analysis Discriminates Hypertensive Heart Disease vs Non-apical Hypertrophic Cardiomyopathy	Scientific Abstract	Accepted as Oral Presentation
Ms. Weihui XIE	(23) Cardiac Computed Tomography-derived Left Atrial Strain and Volume in Pediatric Patients with Congenital Heart Disease: A Comparative Analysis with Transthoracic Echocardiography	Scientific Abstract	Accepted as Oral Presentation
Dr. Xuan MA	(29) Uhl Anomaly in a Toddler: A Case Report	Case Report	Accepted as Oral Presentation
Dr. Zhongfei LU	(32) A Cardiac Hemangioma in Right Ventricle	Case Report	Accepted as Oral Presentation
Dr. Yuan CHEN	(35) Primary Malignant Pericardial Mesothelioma Presenting as Constrictive Pericarditis with Atypical Imaging Appearance : A Case Report	Case Report	Accepted as Oral Presentation
Dr. Yuan CHEN	(36) The Preoperative Guidance Value of Coronary CT Angiography in Acute Stanford Type A Aortic Dissection Involving Coronary Artery	Scientific Abstract	Accepted as Oral Presentation
Dr. Stefanie TARIGAN	(48) Asymptomatic Right Superior Pulmonary Venous Aneurysm, How CT-Scan as a Modality of Imaging Figured That?	Case Report	Accepted as Oral Presentation
Ms. Liting SHEN	(54) Additive Effect of Aortic Regurgitation on Left Ventricular with Type 2 Diabetes Mellitus Evaluated via Cardiac Magnetic Resonance Tissue Tracking	Scientific Abstract	Accepted as Oral Presentation
Dr. Ya rong YU	(60) CT-FFR for the Diagnosis of Myocardial Bridging-Related Ischemia: A Study Using Dynamic CT Myocardial Perfusion Imaging as a Reference Standard	Scientific Abstract	Accepted as Oral Presentation
Dr. Jie HOU	(77) Clinical Application of Cardiac Magnetic Resonance Feature Tracking Technique in Rheumatic Mitral Stenosis and Concurrent Atrial Fibrillation	Scientific Abstract	Accepted as Oral Presentation

Prof. Xiaolong ZHU	(84) Predictive Value of Pericoronary Fat Attenuation Combined with CT Fractional Flow Reserve for Major Adverse Cardiac Events in Patients	Scientific Abstract	Accepted as Oral Presentation
Dr. Li SUYU	(91) Therapeutic Decision-Making and Prognosis Implications of Machine Learning-based FFRCT and CT Myocardial Perfusion in Patients with Coronary Artery Disease	Scientific Abstract	Accepted as Oral Presentation
Dr. Qian CHEN	(92) Radiomic Signatures of Vulnerable Plaques at Coronary Computed Tomography Angiography Predict Clinical Outcomes: A Multicohort Study	Scientific Abstract	Accepted as Oral Presentation
Mr. Ke ZHOU	(98) Incremental Diagnostic Value of Radiomics Signature of Pericoronary Adipose Tissue for Detecting Functional Myocardial Ischemia: A Multicenter Study	Scientific Abstract	Accepted as Oral Presentation
Ms. Huaibi HUO	(102) Comprehensive Multimodal Cardiac Magnetic Resonance Imaging Markers for Prediction of Left Ventricular Remodeling after Acute Myocardial Infarction	Scientific Abstract	Accepted as Oral Presentation
Mr. Cheng XU	(116) The Impact of Deep Learning Reconstruction on Image Quality and Coronary CT Angiography-derived Fractional Flow Reserve Values	Scientific Abstract	Accepted as Oral Presentation
Dr. Ho Ting Abe NGAN	(119) Filling Defects in Pulmonary Artery. Are They All Pulmonary Emboli? A Case Series	Case Report	Accepted as Oral Presentation
Dr. Guanzhong CHEN	(122) Direct Assessment of Tricuspid Regurgitation by 4D Flow Cardiovascular Magnetic Resonance: A Case Report	Case Report	Accepted as Oral Presentation
Dr. Anh Thi Ngoc CHAU	(127) Coronary Artery Ostial Obstruction Due to Papillary Fibroelastoma of the Aortic Valve: A Case Report	Case Report	Accepted as Oral Presentation
Dr. Hyun Jung KOO	(128) Dynamic CT Myocardial Perfusion for Detection of Cardiac Allograft Vasculopathy After Heart Transplantation	Scientific Abstract	Accepted as Oral Presentation
